About the Conference

The CPCE Health Conference 2020 is the fifth annual international conference organised by The Hong Kong Polytechnic University's College of Professional and Continuing Education (CPCE) since 2016. The theme of this year's Conference is "**Ageing with Health and Dignity: Implications for Public Policy, Service Delivery, Workforce, Technology and Financing**". The aim is to solicit solutions to ageing from a multidisciplinary perspective.

Welcoming Remarks

Professor Peter P. YUEN

*Dean, College of Professional and Continuing Education (CPCE);
Professor, Department of Management and Marketing, The Hong Kong Polytechnic University*
BA, MBA [S.U.N.Y. (Buffalo)]; PhD (Birm.); FCHSM (Aust.)

It gives me much pleasure to welcome you to the CPCE Health Conference 2020: "**Ageing with Health and Dignity: Implications for Public Policy, Service Delivery, Workforce, Technology and Financing**". While Hong Kong has the longest life expectancy in the world and a GDP higher than many industrialized countries, we know well that many of our elderly residents do not age with health and dignity. Close to 7% of our elderly population are institutionalized, which is double/triple the rate of many of our neighbours. 90% of all deaths occur in public hospitals, which is highly undesirable. Waiting time in public hospitals for diagnosis and treatment of some chronic conditions is measured in years. We have a long way to go in terms of ageing with health and dignity.

The CPCE Health Conference was first organised in 2016. This current conference is the fifth consecutive annual conference by CPCE to explore issues relating to ageing, sustainability, healthcare delivery and financing reform, healthcare quality, and integrated model of care in Hong Kong and the Asia-Pacific region. This Conference is partially supported by a grant from the Research Grants Council (RGC) to establish the **Centre for Ageing and Healthcare Management Research (CAHMR)** under PolyU SPEED.

We are privileged to have academics and experts from Australia, Canada, Chinese Mainland, Hong Kong, Japan, Macau, South Korea, Thailand, as well as the United States of America here with us today. There will be ten plenary sessions and six concurrent sessions. More than 200 participants have registered.

I would like to express my sincere appreciation to the Conference Organising Committee, our co-organisers, our sponsors, our supporting organisations and my colleagues at CPCE for making this happen.

I wish to thank all participants for coming to the Conference. It is indeed our great pleasure to see so many old friends and new like-minded friends in this event.

As we are in January 2020, I wish to take this opportunity to wish everyone a Happy New Year and Good Health and an enjoyable and fruitful day at CPCE!

Invited Speakers

Professor Toshihiko HASEGAWA

President, Future Health Research Institute, Japan
MD, MPH, PhD

East Asian Position in World Ageing and Health & Social Transition

Prof. Hasegawa is President of the Future Health Research Institute. He is a retired Professor of Nippon Medical School after a long career in the Japanese government, including development of elderly care policy and management of Japanese national hospitals. He graduated from Harvard School of Public Health for MPH, from Osaka University Medical School for MD, and finished General Surgical Residency in Milwaukee, Wisconsin.
